

DBT Fundamentals Online Training

An Introduction to DBT for Psychotherapists,
Educators & Helping Professionals

Saturday, Nov. 5th & Friday, Nov. 11th

Triangle Area DBT - TADBiT

The DBT Fundamentals Online Training: A Trans-Diagnostic Treatment for Emotion Dysregulation

Dialectical Behavior Therapy (DBT) is a highly effective treatment developed by Marsha M. Linehan, PhD for multi-diagnostic, severely disordered individuals with pervasive emotion dysregulation. While originally developed for difficult-to-treat patients with borderline personality disorder, research has demonstrated that DBT is also effective for individuals with a variety of complex problems, such as eating disorders and substance abuse, where emotion dysregulation is often at the core of the client's problems. DBT, with its dialectical framework, provides a behavioral systems approach also shown to benefit couples and families. DBT has been adapted for use in a variety of settings, including inpatient hospitals, schools, residential programs, and prisons, as well as outpatient clinics.

Benefits of the DBT Introductory Fundamentals Training

1. Gain understanding of these key DBT fundamentals: ● The Development of DBT into a Trans-Diagnostic Treatment for Emotion Dysregulation ● The Structure of DBT: Stages of Treatment and Target Hierarchy ● Understanding Emotion Dysregulation, the Biosocial Theory and the Transactional Model ● When and How to Use the Acceptance Strategies, featuring Validation ● The Behavioral Change Strategies, featuring Problem-Solving ● Overview of DBT Skills of Core Mindfulness, Emotion Regulation, Interpersonal Effectiveness, and Distress Tolerance ● What is Dialectics and How to Use the Dialectical Strategies ● DBT Behavior Chain Analysis and Case Formulation (to identify factors controlling problem behaviors) ● Strategies for Adapting DBT to Unique Settings Using DBT Functions and Modes
2. This training meets one of the basic requirements (along with being on a DBT Team and providing the 5 Functions/Modes of comprehensive DBT) for therapists to be part of the [TADBiT DBT Therapist Directory](#). For those of you who have been participant-observers in DBT Skills Group or in DBT Skillz for Therapists, this training provides a theoretical and practical foundation that complements your experiential learning.
3. Participants who complete all four sessions will earn a certificate of completion for the 12 hours of training. While past experience indicates that these hours can be applied to certain categories of continuing education for LCSWs, LMFTs, LPPs, BCBA's (however likely not for LCMHCs), participants assume responsibility to confirm this with their respective licensure boards.

Who Should Attend? This course is designed for mental health and other professionals (clergy, teachers, professors, nurses, physicians). Supporting self and others in developing skillful compassion increases effective emotional coping and well-being. Past attendees are invited to use this as a "refresher" course.

Location: Online. You will be sent the link to join.

Schedule: **Saturday, November 5th & Friday, November 11th**

Morning Session: 9am – 12:15pm and Afternoon Session, 1pm – 4:15pm

Cost: General fee is \$280 if paid by October 5, 2022. \$330 thereafter.

Students, Refresher (those having completed previous DBT training from TADBIT, BTech, TIC or UNC SSW), and others requesting a Reduced fee: \$180 if paid by **October 5, 2022. \$230 thereafter.** Refund requests by email must be received one month before the start date.

Instructors: Janice Bainbridge, Melissa Miller, Kirk Mochrie and John Mader

Janice Bainbridge, LCSW, has completed DBT Intensive training and is a DBT-Linehan Board of Certification, Certified Clinician™. She has been practicing DBT and teaching skills classes for over 10 years and participates in a DBT consultation team. In her work at UNC Center for Excellence in Community Mental Health where she is currently employed, she leads DBT skills groups for individuals experiencing serious mental health conditions and complex problems in areas related to social determinants of health.

Melissa Miller, PhD, is a Licensed Psychologist at CBT Durham. Dr. Miller has been providing DBT for nearly 15 years, is a DBT-Linehan Board of Certification, Certified Clinician™, and also enjoys providing psychoeducation to friends and family members with loved ones in DBT. Dr. Miller worked as an Attending Psychologist at Duke University Medical Center for a number of years, training students from various disciplines to provide DBT. As an avid crafter, Dr. Miller also enjoys making props and tools to creatively teach or represent DBT concepts.

Kirk Mochrie, PhD, obtained his doctoral degree in clinical psychology and currently works as an intake coordinator and staff clinician at the Triangle Area Psychology (TAP) Clinic and is a DBT-Linehan Board of Certification, Certified Clinician™. He has specialized training in DBT for individuals who experience significant emotion dysregulation and who engage in self-injury and suicidal behaviors as well as extensive training in working with individuals with Substance Use Disorders and Borderline Personality Disorder. Dr. Mochrie has numerous publications related to DBT and currently runs a DBT Adolescent group at the TAP clinic. He also provides therapy to individual DBT clients in the DBT-certified adult and adolescent programs at the TAP clinic.

John Mader, LMFT, has a private practice in Chapel Hill and Carrboro, NC as a Licensed Marriage & Family Therapist (LMFT) and DBT-Linehan Board of Certification, Certified Clinician™. He has completed DBT Intensive training and is a Co-Director of Triangle Area Dialectical Therapy (founded by Meggan Moorhead and Norma Safransky). He has taught DBT Skills Training Groups since 1997, DBT Family Skills Training since 2004, DBT Skills for Couples since 2008 and leads a DBT Consultation Team. His website, dbtfamilyskills.com, provides resources on using DBT skills in relationship.
